

## How we Ship at Bahr Gallery

It's critical to protect the glass in a Bahr Gallery piece and so we use specially crafted boxes from Masterpak to keep your artwork safe! Note that the box is very sturdy – the top and bottom are lined with tough plastic to prevent puncturing. Heavy egg-crated foam protects the piece from moving around and then we carve out a little “nest” inside the middle piece of foam.

Here's the hard plastic and egg-crate foam [top photo].

Now notice we have carved out a custom-size “box” to safely nest your artwork. [above]

And now we are ready to close up the box and go - We ship by UPS or FedEx Ground [right]
